Women's Sorority Opens Journalistic Register

Chicago, Ill., Dec. 25.—A national journalistic register for college trained women anxious to enter the journalistic and advertising fields has recently been opened in Chicago under the auspices of Theta Sigma Phi, women's journalistic sorority. Its endeavor is to help young women to obtain positions in writing work and to be the only bureau of its kind in the country.
"The register is not a commercial enterprise," said Susan Shaffer, director, manager of the bureau. "It is a mutual benefit organization to provide the kind of woman that employers of writing people need."
Among those on the register's advisory council are Mary Roberts Rinehart, Dr. Frank Crane, Lew Brown, Dorothy Dix, Fannie Hurst, Mrs. Frederick Van Rensselaer Day, and June J. Martin.

GEE! MAMA!

Uncle Frank and Leo and I had a fast ride this evening. We went 100 miles an hour and the wheels weren't even touching ground. Maybe you don't believe it, but we went in an airplane.
It just goes fine. When we went over Main street we were between 1500 and 1200 feet. Main street looked about a yard long and six inches wide. The road there would be a corn field about 3 feet long, and alongside of it there would be a field about the same length, with shocks smaller than a pinhead. To tell the truth, it was just beautiful. I could see Iowa hills and Astoria and all around. Papa went up yesterday. I don't know what size to say, so I will close with love.
—Charles E. Roth, Jr., Ackley, Iowa.

AT THE **WHITE HOUSE** MOD.
The First Glimpse Of Spring
In keeping with our annual December custom, we introduce the Fashions for Spring, 1921, to meet the requirements of the maids and matrons of the Southwest who desire to wear the new while it is new, here where December is as balmy as Springtime.
Flippant are the Spring Frocks for every occasion now on display in our Apparel Salons on the second floor—and, as to sports costumes, indications are that they will be in greater evidence than ever. Of Springtime inspiration are Suits and Coats of lighter weight and soft shades.
At the left above the sketch gives one an idea of the new lines Spring frock effect. While the sketch at the upper right shows one of the new Springtime modes in Suits.
On the street floor Palm Beach Sports Hats have made their initial appearance, as have exquisitely dainty Slippers and Sports Oxfords designed for early Spring wear.
Frocks of flowerlike beauty for the girl in her teens and for her little sister are to be seen on the third floor. Just a glimpse of the Fashions for Spring, 1921, indicative of shipments which will follow them. Your inspection is invited.

Your Table Linen and Bill Smith's Overalls

"I would like to use the laundry," said Mrs. Porter, "but I just can't bring myself to the thought of having my table linen washed with Bill Smith's overalls, and Sam Brown's socks."

Mrs. Porter unwittingly exposed in this remark her lack of familiarity with modern laundry methods.

Really, it would make little difference from the sanitary point of view if this mixing were practised, for everything we wash is sterilized as well as cleansed.

But actually there is no such promiscuous washing. The things that come to us in your bundle are all carefully sorted. Hosiery is washed only with hosiery, table linen only with table linen, "pinks" only with "pinks" and so on. Each class of goods is washed separately from every other—and the water renewed from nine to twelve times while laundering is in progress.

This is a method superior even to that of the laundress. You receive your washing back sweetly clean—and pure.

But are you sure of this when you send your washing to some unknown place, where there is no supervision, and little knowledge of modern laundry sanitation?

If you would best guard your own and your family's health, and secure refreshing cleanliness, at moderate cost, call us up. We will send our driver for your family bundle.

AID OF COURT ASKED TO GET MILL RECORDS

Bismarck, N. D., Dec. 25.—Declaring accountants have been unable to gain full access to the records of the mill and elevator at Drake operated by the North Dakota Mill and Elevator association, a state industry, the state auditing board has asked the supreme court to issue an order to members of the industrial commission, the secretary of the commission and the Bismarck Auditing company, of Bismarck, to deliver the books and records held necessary to the work of the auditing board.

The board contends that the records obtained show that the Drake mill had sold \$125,000 worth of flour to the Consumers United Stores company on consignment, and accountants of the board charge they are unable to obtain the records to learn whether the flour has been paid for.
